

2000 #5

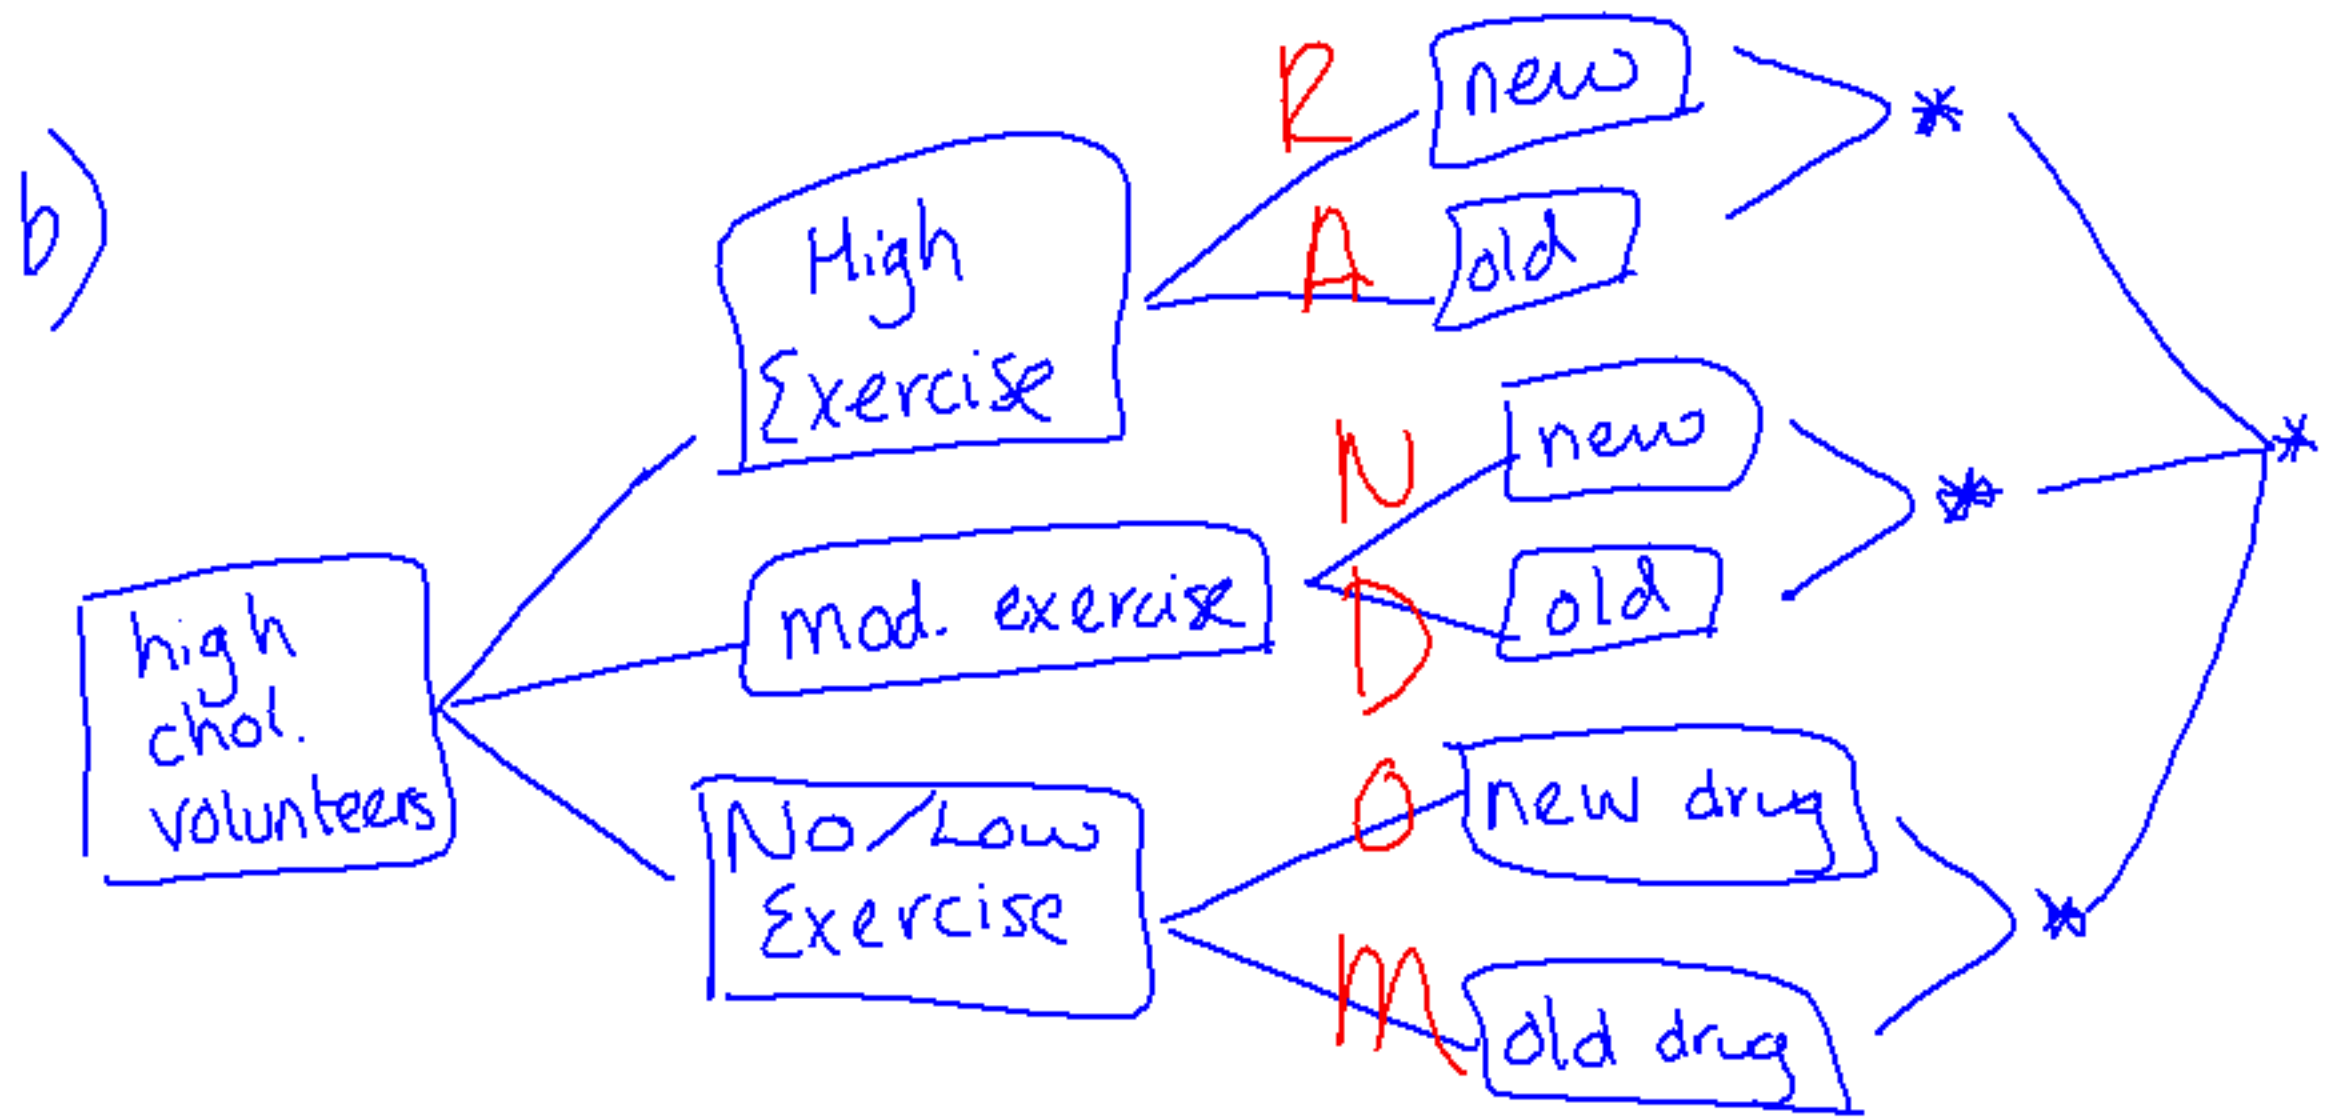

a)

First I took volunteers, gave each a # & used software to randomly assign  $\frac{1}{2}$  to trt. 1, other  $\frac{1}{2}$  to trt. 2

Grading:

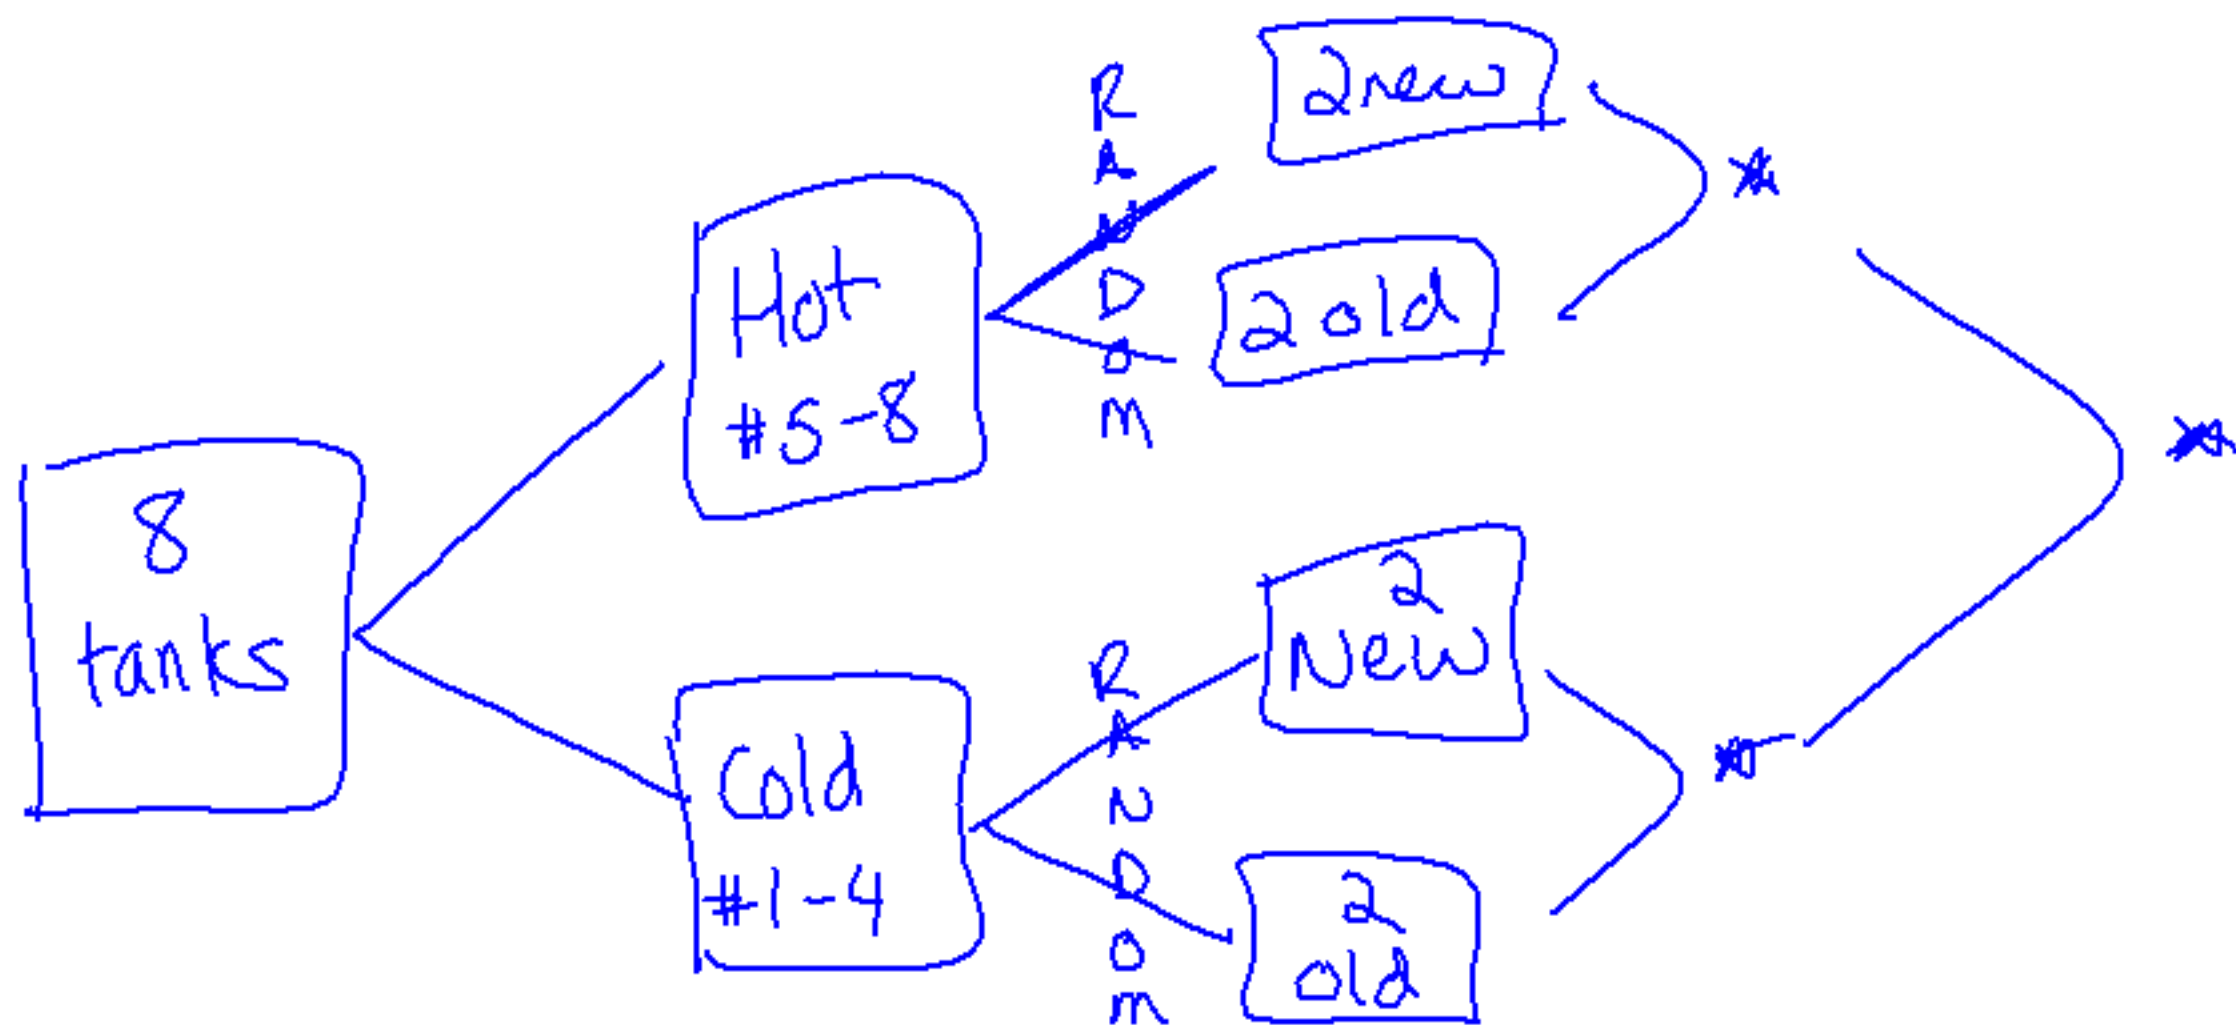

- 1) random assignment to trts.
- 2) trts = old/new
- 3) comparison of chol. levels

### Grading

- 1) Blocks w/ explanation
- 2) random

Blocks = group of exp. units  
that all have something  
in common (that would  
affect results of expt.)

\* = Compare wt. gain
